Summary

Computer Science undergraduate with hands-on experience in full-stack development (Flask, Flutter, JavaScript) and applied AI/LLM integration. Currently building production-style systems independently, including an AI-driven hiring intelligence platform with JWT authentication and OpenAI integration. Seeking software engineering opportunities to apply proven backend and applied-AI skills.

Experience

Software Engineering Intern

June 2026 – Present

Corporeal Health Solutions Pvt Ltd

- Built and maintained responsive cross-platform application features using Flutter and Dart for a healthcare-focused mobile product
- Developed modern web interfaces using JavaScript, HTML, and CSS to complement the mobile application
- Integrated APIs to connect frontend UI with backend services, improving data flow across the application
- Collaborated within a sprint-based development workflow, using Git for version control and code review

Projects

LearnTech – Gamified Learning Platform

Python, JavaScript, HTML, CSS

- Designed and developed a gamified learning platform featuring course discovery, XP progression, authentication, premium subscriptions, and a searchable tech resource library
- Built interactive dashboards with learning progress tracking and a retro game-inspired UI/UX
- Source Code

Citadel – Digital Library Management Platform

Python, JavaScript, HTML, CSS

- Developed a digital library platform with book cataloguing, search, filtering, library card issuance, rental workflows, and return management
- Implemented email notifications, rental confirmations, availability tracking, and interactive user workflows
- Source Code

Certifications

Google Cloud: Inspect Rich Documents with Gemini Multimodality & Multimodal RAG | Explore Generative AI with the Vertex AI Gemini API | Prompt Design in Vertex AI 2025

Coursera (Amazon): Data Structures and Algorithms Jan 2026

Education

Bachelor of Technology, Computer Science and Engineering

2024–2028

Jamia Hamdard University

Senior Secondary (Class XII)

2022–2023

Hamdard Public School

Technical Skills

- **Languages:** Python, JavaScript, Dart, SQL (MySQL)
- **Backend:** Flask, SQLAlchemy, JWT Authentication, RESTful API Design
- **Frontend:** HTML, CSS, Flutter
- **AI/ML:** OpenAI API, Gemini/Vertex AI, Prompt Engineering, RAG, NLP
- **Tools:** Git, GitHub, VS Code, Android Studio
